**IT Project Manager | AI Enablement | Workflow Automation | Digital Workplace | HR Technology**

## PROFESSIONAL SUMMARY

IT project manager and AI enablement specialist with 13+ years of progressive experience across enterprise technology, workflow automation, change management, HR and benefits systems, analytics, and regulated healthcare service. Built WACKER Chemical's enterprise AI enablement function across HR, Legal, Operations, and IT after advancing through benefits operations and HR technology roles. Connects technical teams, business stakeholders, and end users to turn operational needs into practical systems, processes, training, and adoption. Offers a distinctive HR + IT background for AI enablement, digital workplace, automation, transformation, and people-technology opportunities.

## CORE CAPABILITIES

AI Enablement and Adoption | IT Project and Program Delivery | Workflow Automation | Digital Workplace | Change Management | Process Improvement | Business Process Mapping | Requirements Gathering | Stakeholder Engagement | AI Governance | Training and User Enablement | HR and Benefits Technology | Data Analysis and Reporting | Agile Delivery | Lean Six Sigma

Data and Reporting: Power BI, Tableau, Microsoft Forms, Excel

Enterprise Platforms: Microsoft 365, SharePoint, Teams, ServiceNow APM governance, PeopleSoft, Workday end-user experience, ADP Workforce Now, ADP Mobile, HealthEquity

Delivery and Process: Visio, requirements gathering, business-case intake, application lifecycle governance, as-is/to-be process mapping

## PROFESSIONAL EXPERIENCE

### WACKER CHEMICAL CORPORATION | Ann Arbor / Plymouth, MI

**IT Project Manager / AI Enablement Specialist | December 2024 - Present**

- Manage the ServiceNow Application Portfolio Management lifecycle from business demand intake through delivery and retirement of legacy applications.
- Own the Software Cloud Check process for new application requests and present business-partner cases to the German IT organization for approval or decline.
- Built an enterprise AI enablement function across HR, Legal, Operations, and IT, covering use-case discovery, agent deployment, governance design, user support, and adoption.
- Led the TechSmart digital learning program across nine sites, delivering 34 sessions to 1,019 attendees with a 72% attendance conversion rate, 3.0/3.0 CSAT, 65% year-over-year growth, and a 380% increase in voluntary learning hours.
- Developed 500+ enterprise-grade AI prompts with governance tags, use-case categories, and responsible AI documentation to support governed self-service adoption.
- Built and deployed Microsoft Copilot Studio and Power Automate solutions for HR offboarding, SCORM content conversion, document transformation, and the audit-sensitive Legal.NCA routing workflow.
- Partnered with Enterprise Architecture, IT Security, Legal, and HR Operations on responsible-use standards and governance; supported the global Copilot Learning Path rollout as an NCA regional contact.
- Built Power BI and Tableau adoption reporting and hours-saved ROI models to support roadmap, investment, and scale decisions.

### WACKER CHEMICAL CORPORATION | Ann Arbor / Plymouth, MI

**Benefits Specialist / IT Digital Champion | June 2022 - December 2024**

- Served as an IT Digital Champion within HR, piloting Microsoft 365 and early Copilot use cases and creating internal responsible AI documentation.
- Improved ADP benefits processes by activating self-service life-event and mobile features, adding reports, and coordinating with the platform representative.
- Collaborated on a SharePoint tuition-reimbursement preapproval workflow and reporting process that replaced a paper form and improved visibility.
- Coordinated with HealthEquity and the benefits broker to resolve COBRA file and employee-service issues.
- Updated new-hire and open-enrollment presentations, guides, and educational content; supported employee questions across virtual and in-person channels.
- Contributed to a cross-functional Benefits Customer Service Tracker on SharePoint with Power Automate routing and notifications, supporting service intake and workload visibility.

### ROCKET COMPANIES | Detroit, MI

**Benefits Specialist | July 2019 - June 2022**

- Managed implementation and ongoing support for HealthEquity and Blue Cross Blue Shield of Michigan benefit platforms, including data coordination across systems and vendors.
- Processed EDI 834 eligibility files and resolved rejects across benefit-system and vendor workflows.
- Delivered technology and benefits training to groups of 300+ employees per session in onsite, virtual, and hybrid formats.
- Automated HSA and FSA account-management processes and created biweekly audit reports for file validation and reconciliation.

### COUNTY OF WAYNE | Detroit, MI

**Benefits and Disability Analyst (Department Manager 5) | September 2018 - July 2019**

**Benefits Enrollment Specialist (Department Manager 1) | April 2017 - November 2018**

- Managed PeopleSoft benefits data, reporting, and validation while coordinating information among HR, Payroll, Finance, actuaries, and external administrators.
- Prepared OPEB, retiree stipend, HSA/FSA, deduction, eligibility, and reconciliation reports supporting employees and retirees.
- Administered enrollments, qualified life-event changes, COBRA, dependent eligibility, and employee issue resolution.
- Led the benefits team by participating in hiring two team members and one intern who converted to full time, then owning onboarding and training for all three.

### BLUE CROSS BLUE SHIELD OF MICHIGAN | Detroit, MI

**Customer Service Representative II | May 2013 - April 2017**

- Resolved member and provider questions involving claims, benefits, eligibility, Medicare Advantage, auto, and large-group coverage.
- Investigated claim issues, coordinated with providers and other Blue Cross plans, and documented status updates and escalation paths.
- Reviewed Explanation of Benefits correspondence and protected-health-information authorization forms before member delivery.
- Created Excel claim-history reports and participated in customer-experience and nonstandard-benefit pilot work.

## EDUCATION AND CREDENTIALS

Bachelor of Science, History | Eastern Michigan University

Lean Six Sigma Black Belt (ICBB) | Lawrence Technological University

Agile Project Management Professional | Atlassian

Career Essentials in Generative AI | Microsoft and LinkedIn

Microsoft 365 Copilot | Microsoft Learning Path

## SELECTED PORTFOLIO
